DIRTRACK RACECARS

**Modified**  
Thundering... gnaty, rough-and-tumble oval track racers that keep fans on their feet from coast to coast. Whether on dirt or asphalt, a modified show delivers more action for your racing dollar than any other event on wheels. To most, these cars appear to be nothing more than junkyard leftovers. But we know better. We know that behind every scratch... lies both beauty and beast. A modified car is a force that commands your attention. More than an automobile, a modified race car is ATTITUDE ON WHEELS.
